

WISCONSIN STATE LAW REQUIRES RECYCLING. EVERYONE IS RESPONSIBLE FOR RECYCLING.

Recycling in the City of Mauston

Mauston residents are required to recycle. It is the law. Grant programs in the State of Wisconsin provide funding based on the amount of items recycled from the residential refuse collection. The more refuse residents separate out to be recycled, the more funding the City of Mauston receives. These grant dollars are used to offset the expense of providing refuse and recyclable pickup services.

Please follow the guidelines below:

- Place recycling curbside in bins by 7am on day of pickup, and no more than 24 hours before pickup.
- If recycling is placed in bags, use clear plastic.
- Scheduled pickup day on a holiday will be next business day.
- Additional recycling bins are available at the City Hall for \$5.00
