A Benefit of Chamber Membership

A benefit of Chamber Membership is the introduction of Chamber Bucks. Chamber Bucks come in \$5, \$10, \$25 & \$50 denominations and can be bought at the Chamber office. They can only be redeemed at the businesses of chamber members. They should be handled just like a check – deposit them directly into your business bank account. There is no cost to you, the merchant, and the chamber makes no money on this, it is strictly a benefit.

Anyone can purchase Chamber Bucks, and will receive a list of places they can be redeemed. They are perfect for hard to buy for friends, family and co-workers; and are great for any occasion because they can be redeemed at a number of different places (retail, restaurants, etc.)

How Customers Use Chamber Bucks Chamber Bucks come in \$5, \$10, \$25, & \$50 denominations and can be used at any of the following chamber businesses. Simply fill in the “Pay to” and present to the business of your choice.

***Chamber Bucks make a great Stocking Stuffer or last minute gift.
Call Mauston Chamber at 608-847-4142 to Purchase yours.***

Volunteer at Necedah NWR

Refuge volunteers are vital to the Necedah National Wildlife Refuge mission. Volunteers contribute hundreds of hours each year to help meet this mission through monitoring bird populations, leading school groups, maintaining trails, taking photos, helping in the office and repairing equipment and facilities. No special skills are needed to be a Refuge volunteer. If you have a desire to help, we need you. We hope you'll join us! The best way to find out about current volunteer opportunities is to contact the Refuge.

School District of Mauston Community Field News

Community Referendum Update

By: Superintendent Christine M. Weymouth

In the spring of 2015, the Greater Mauston community supported the opportunity for the School District of Mauston to issue general obligation bonds not to exceed \$2,500,000.00 to pay for district-wide facility improvements.

To date, roofs have been replaced on Grayside Elementary School and West Side Elementary Schools and security and intercom safety upgrades have been installed in all school buildings. The District is also considering a new unified communication system that will upgrade safety features to its telephone infrastructure to support safety in communication for all students and employees.

The District continues to hope for good weather conditions so that the construction work on the community field, track and grandstand referendum project can stay on schedule for completion for mid July 2017. The work on the community field site continues:

Excavation and drainage on the field is completed and the next step will be to complete the underground irrigation and finalize topsoil and prepare for seeding for the spring.

Resurfacing of the track will take place subsequent to the fieldwork scheduled for late spring. This means the track and field are unavailable for school district and community use this spring and summer.

Late Fall 2016, concrete grandstand footings and an underside slab were installed.

Beginning Monday March 6, the work on installing the grandstand will begin on site. The structural framing, stairs, ramp and press box are complete and will be transported to our site early March.

Field use for athletic events and community events will be contingent on weather conditions and the progress of seeding on the field.

The new Press Box will involve internal construction detail that former athletic director Randy Fabian will be supervising over the spring and summer. The District will be honored to have the donation of individual hours and construction materials to assist Mr. Fabian in the completion of this work.

The District continues to utilize a Campus Fields Advisory Team that functions as an oversight to the general track, field and bleacher referendum project.

Questions regarding athletic use of fields and general construction can be made to Superintendent Christine Weymouth and Athletic Director Randy Gyllin at 608-847-5451.
